

Geological Society of Washington 2024 Fall Field Trip

Please join us for fun half-day to full-day field trip along West Virginia Corridor H! We will delve into the fascinating Appalachian Paleozoic stratigraphy in the Valley and Ridge Province of Virginia and West Virginia. Our stops will provide the opportunity to explore the relations between the Paleozoic sedimentary rock record and the major tectonic events that shaped North America.

Trip Details:

Meeting Point: Haymarket Commuter Park and Ride, 14861 Heathcote Boulevard, Haymarket, VA 20169

Date: Saturday, December 7th

Time: 8:30 AM

We will meet as a group and encourage carpooling to facilitate a smoother trip, though parking at the stops will not be an issue.

Rough Itinerary:

Morning: Visits to key geological sites in Virginia and West Virginia

Lunch: ~1:30pm A break in Moorefield, WV, where participants opting for the half-day can choose to depart.

Afternoon: Continued exploration of outcrops west of Moorefield for full-day attendees.

Registration:

Please contact Alan Pitts at pitts.alan@gmail.com to register and receive pre-trip reading materials.

We look forward to seeing you outside!
